# What is IAB?

A comprehensive initiative for educational reform:

- Based on research in the Arab World
- Grounded in neuroscience / cognitive science / corroborated best practices in education
- Deployed within existing curricula
- Respects local culture and heritage
- Grounded in *Profile Shaping Education* (PSE)

# Profile Shaping Education

## PSE

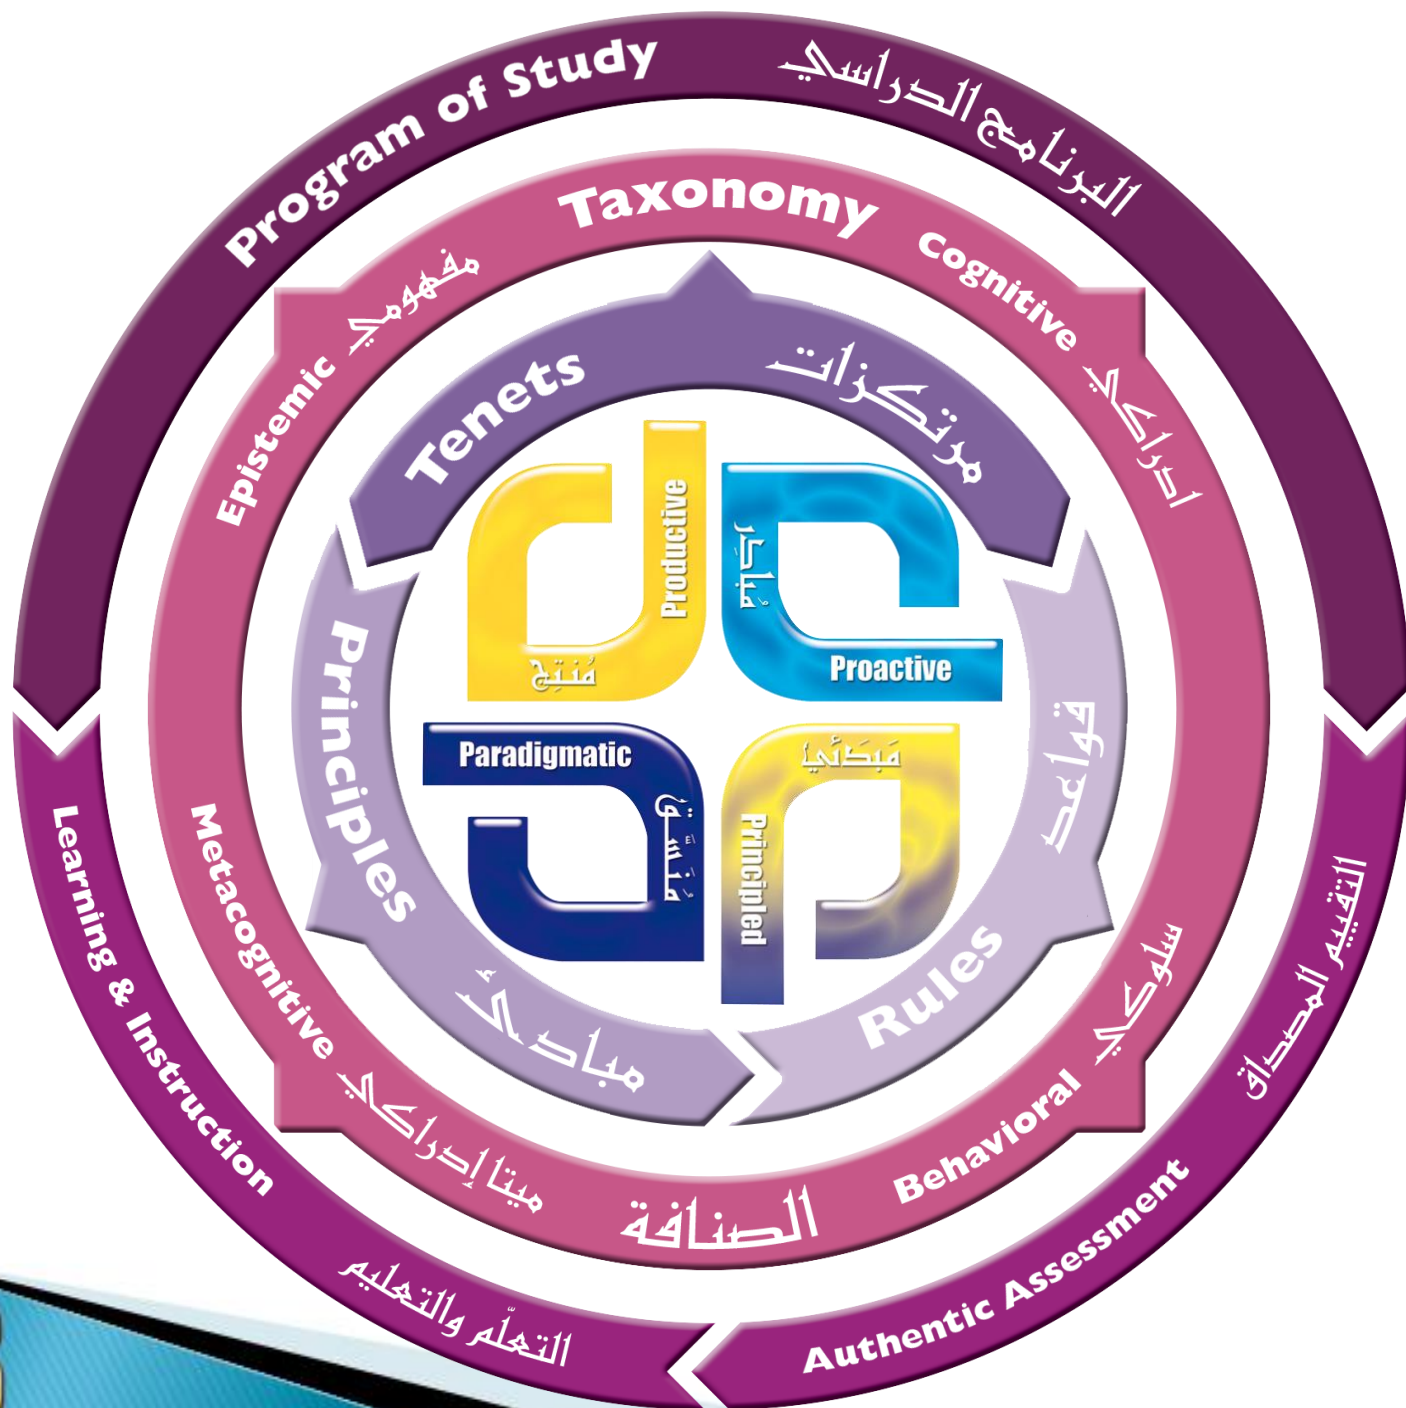

*Empower students with a profile*

*for success in modern life,*

*higher education & the workplace*

# Authentic Assessment

- ✖ Assessment NOT a goal
- ✔ but means to promote the 4-P profile
- ✖ Assessment “of” learning
- ✔ Assessment “for” learning
- ✔ Assessment “as” learning
- ✔ Universality & Equity
- ✖ Meaningful learning NOT rote learning

# School accreditation

# Success indicators

# Universality

Uniformity of assessment across  
Fields, grades, schools, countries

- Uniformity of item / assessment design & deployment

[Item map](#)

- Cross-disciplinary projects

- Common scale calibration & leveling criteria

based on PSE developmental levels:

Initiation, gestation, replication, innovation

# PSE Developmental Stages

| Stage | Epistemic   | Cognitive / Behavioral / Metacognitive<br>(Habits of mind and practice)  |
|-------|---|--|
| 1     | The student has <b>barely</b> realized, if any, the scope or structure of a given <b>system</b> .   | The student <b>barely</b> demonstrates her/his ability to deploy the habit (reasoning skill, dexterity or disposition) in the context of any system.                                   |
| 2     | The student has <b>partially</b> realized the scope and structure of the system as demonstrated in <b>familiar</b> situations.  | The student demonstrates her/his ability to <b>partially</b> deploy the habit in the context of certain <b>familiar</b> systems / situations.  |
| 3     | The student has realized the scope and structure of the system, <b>to the extent that is required</b> , as demonstrated in <b>familiar</b> situations or similar new situations.                          | The student demonstrates her/his ability to deploy the habit, <b>to the extent that is required</b> , in the context of <b>familiar</b> systems / situations or similar ones.          |
| 4     | The student has reinforced her/his knowledge about the scope and structure of the system <b>beyond what is required</b> , as demonstrated in new situations that are <b>not similar</b> to familiar ones. | The student demonstrates her/his ability to deploy the habit <b>beyond what is required</b> , in the context of new systems / situations that are <b>not similar</b> to familiar ones. |

# Equity

- Continuous assessment  
IAB diploma based on Grades 10-12 work
- Diversity of types & forms of assessment  
Respect of learning styles  
On-line, on-demand, on-paper
- Continuous monitoring & processing of  
items & stakeholders' data
